

## OUR EXPERIENCE

All Ireland Institute of Hospice & Palliative Care (AIHPC) is a leading organisation with national and international influence driving excellence in palliative care. AIHPC is a collaborative of hospices, health and social care organisations and universities on the island of Ireland. AIHPC advances education, research and practice to improve the palliative care experience of people with life limiting conditions and their families. As the palliative care sector's institute, AIHPC is:

- involving service users, carers and communities in palliative care delivery and development
- working to integrate palliative care across the health system so people are supported as early as possible
- supporting the development of specialist palliative care services for everyone who needs them.

Developing The Palliative Hub has been a major component of our work and one we are continually improving and developing.

## ABOUT THE PALLIATIVE HUB

The need for understanding palliative care is becoming more critical as the population ages. The over-65 population will increase 200% over the next 30 years.

Palliative Care will have a key role to play in helping care for this population. Understanding what palliative care is will be more important than ever. The Palliative Hub aims to be a gateway to understand and connect palliative care across the island of Ireland.

The Hub seeks to deliver this information and resources to a number of audiences through four different components:

- Children and Young People
- Adult
- Professional
- Learning Platform

## ACCESSING THE HUB

[www.thepalliativehub.com](http://www.thepalliativehub.com) provides an easy way to access all the websites. The Hub is also home to the annual public awareness campaign, information for volunteers in palliative care and provides a general overview of palliative care on the island of Ireland.

## THE WEBSITES

### The Palliative Hub - Children and Young People

Aimed at assisting parents, guardians and carers in understanding what children's palliative care is and seeks to help filter the wide range of information available on the internet.

### The Palliative Hub - Adult

Aimed at adults with palliative care needs, their family members and carers. It provides an overview of palliative care and offers a central resource of information, guidance and services. The Palliative Hub - Adult is also home to the Caring for Carers website, a site dedicated to those who are caring for someone with a palliative care need.

### The Palliative Hub - Learning Platform

The overarching goal of the Learning Platform is to provide an online learning environment for palliative care education. It offers a number of online learning and blended learning programmes and an environment for palliative care educators, including hospice education providers to host their own learning materials.

### The Palliative Hub - Professional

Aimed at health and social care professionals, academics, researchers and educators, It offers a central repository for these audiences to access key reports, toolkits, guidance documents, relevant websites, videos, conference presentations and other resources.
