

OUR EXPERIENCE

All Ireland Institute of Hospice and Palliative Care (AIHPC) is a leading organisation with national and international influence promoting excellence in palliative care. AIHPC is a collaborative of hospices, health and social care organisations and universities on the island of Ireland. It advances education, research and practice to improve the palliative care experience of people with life limiting conditions and their families. As the palliative care sector's institute, AIHPC is:

- involving service users, carers and communities in palliative care delivery and development
- working to integrate palliative care across the health system so people are supported as early as possible
- supporting the development of specialist palliative care services for everyone who needs them.

Developing The Palliative Hub has been a major component of our work and one we are continually improving and developing.

THE PALLIATIVE HUB

An All Ireland Gateway to Palliative Care Information

THE PALLIATIVE HUB

AIHPC, Second Floor,
Education & Research Centre,
Our Lady's Hospice, Harold's Cross,
Dublin, D6W EV82

ABOUT THE PALLIATIVE HUB

The need for understanding palliative care is becoming more critical as the population ages. The over-65 population will increase 200% over the next 30 years. The populations across the island of Ireland are ageing and this trend will accelerate over the coming decades resulting in greater numbers living with one or more chronic conditions.

Palliative Care will have a key role to play in helping care for this population. Understanding what palliative care is will be more important than ever. The Palliative Hub provides a gateway to understand and connect palliative care across the island of Ireland.

The Hub seeks to deliver this information and resources to a number of audiences through six different components:

- Main Hub
- Children and Young People
- Adult
- Carers
- Professional
- Learning Platform

ACCESSING THE HUB

www.thepalliativehub.com provides an easy way to access all the websites. The Hub also hosts all information and resources for the annual public awareness campaign, information for volunteers and carers, and provides a general overview of palliative care on the island of Ireland.

THE WEBSITES

The Palliative Hub - Children and Young People

A portal to information about palliative care for parents, carers and those involved in the care of a child or young person with palliative care needs on the island of Ireland.

The Palliative Hub - Carers

A site dedicated to supporting those who are caring for someone with palliative care needs.

The Palliative Hub - Learning Platform

An online learning environment offering online learning and blended learning programmes and dedicated areas for AllHPC partners to host their own learning materials.

The Palliative Hub - Professional

Aimed at health and social care professionals, academics, researchers and educators, it offers a central repository for key reports, toolkits, guidance documents, relevant websites, videos, conference presentations and other resources.

The Palliative Hub - Adult

A portal to information about palliative care for adults on the island of Ireland.
